

Travel -- Double Numbers

Some of our players have changed teams and there are now duplicate numbers on the same team. To resolve this in an orderly fashion, we have come up with the following hierarchy to resolve duplicate numbers.

- 1) A player moving from a gold level team to a black level team will have to change numbers. Players returning from the black level team have priority.*
- 2) If both players were on a black level team the previous year, the following will be determined:
 - a) The player with the most number of years in the Saline FC Travel League keeps the number.*
 - b) If number of years with the club is equal, then the older player keeps the number.**
- 3) Players new to the club must select a number not taken by a returning Saline FC player.*

We hope that this will easily resolve the number duplicates. We realize that changing numbers isn't easy as many players are attached to their number. We are grateful for your cooperation.
